🔄 VeronikBW

## Summary

Full Stack Developer with experience in React, Flask, and SQLAlchemy. Background as an Operations Manager specialized in workflow optimization, data management with Power BI, and team leadership. Focused on developing scalable solutions that ensure operational continuity and business efficiency.

## Skills

HTML5 | JavaScript | CSS3 | GitHub | Git | Flask | Bootstrap | React.js | Jest | SQLAlchemy | Restful APIs | Python | JWT | Excel

## Projects

**Patitas Felices** 2025 – 2025

- Developed a responsive web platform for an animal shelter using React, Node.js, and flexible CSS, ensuring a seamless experience across mobile and desktop devices.
- Implemented a user registration and profile system using JWT and relational databases, allowing visitors to access detailed pet descriptions (species, age, gender, etc.).
- Integrated the PayPal API for donations, enabling secure and transparent transactions that strengthened the shelter's sustainability.
- Built an administrative dashboard with role-based access control (RBAC), enabling the primary admin to modify/delete pet listings and assign user privileges.

## Professional Experience

**Bangover, Freelance** 01/2026 – Present

- Developed a Full Stack web application for narrative RPG project management, leveraging React for the frontend and Flask/SQLAlchemy for the backend.
- Designed and implemented a complex relational database to manage users and real-time activities, optimizing data querying and performance.
- Developed a secure authentication system using JWT (JSON Web Tokens), implementing role-based access control to differentiate user and administrator profiles.
- Managed deployment and version control via Git and GitHub, applying Agile methodologies to ensure continuous delivery and code scalability.

**Operations Manager, Oxco Chile** 2023 – Present | Concepción, Chile

- Supervised operational teams to execute daily processes, maintaining continuity and strict compliance with service and efficiency standards.
- Implemented inventory control and order management using Power BI for analysis, resulting in precise data for stock planning and returns.
- Guaranteed business stability, maintaining sales targets between 102% and 105% and consistently keeping shrinkage below 0.6%.
- Managed human talent logistics and material resources, structuring operational processes to maximize productivity and minimize service interruptions.

**Operations Manager, "Dulcestela" Coffee Shop** 2020 – 2023 | Concepción, Chile

- Managed stock control and procurement through systematic processes, ensuring data record accuracy.
- Automated shift scheduling and team coordination to optimize resource availability and workflow.
- Resolved operational incidents and provided direct user support, ensuring business continuity and service quality.

**Customer Service Representative, Pronto Copec** 2018 – 2019 | Concepción, Chile

- Handled cash transactions and sales records during high-traffic shifts, ensuring accurate end-of-day balancing.
- Assisted customers and resolved inquiries or complaints directly under high-pressure conditions.
- Executed stock control and product replenishment following inventory and store organization protocols.

## Education

**Introduction to AI Development, Big School** 2026 – 2026 | Concepción, Chile
